Introduction

110 years! A 110 years ago, Ettore Bugatti settle down between Molsheim and Dorlisheim. He had chosen to build his cars in the the Alsatian countryside.

This man was a genius. A genius of the 20th century as Leonardo de Vinci was in his time. He was such a creative person that 1000 patents were deposed in various branches: train indsutrie, aeronautic and marine navigation.

But Molsheim has no real place devoted to that grat man. So some passionnates of the brand have decided to expose their cars and art works in different places in town.

In September many events will happen. This bugatti tribute will end with an aunction day of some art works.

Some souvenirs were specially created for this 110th anniversary.
